

Foreign Language Learning for Pre-Primary through Adult from the comfort of your home!

Turtle River Montessori is excited to again present a comprehensive foreign language learning program your family can access from any computer! The Rosetta Stone Online Foreign Language Learning system is now available for the low per person cost of \$149 per year! This is a \$500 value if purchased individually!

You can pursue ANY of the 25 foreign languages offered:
Chinese, English, French, German, Hindi, Italian, Japanese, Russian, Spanish and more are offered at all levels—beginner through advanced!

The program has a level geared to beginning readers, which allows learners working on their reading skills to participate as well.

Learn in a completely immersive environment.
As a child, you learned to speak instinctively by experiencing the world around you. Rosetta Stone recreates this experience through a fully immersive environment right on your home computer.

Learn naturally and start speaking immediately—without translation or memorization. Rosetta Stone eliminates the traditional approach of using translation and grammar rules, empowering you to think in your new language. There are no flash cards, dictionaries or memorization drills.

A carefully designed sequence of activities. By surrounding you with words, images, and the voices of native speakers, this method lets you progress naturally from words and phrases to sentences and conversations and tracks your progress as you advance to fluency.
